

## Guide to the Student Registration/ Personal Needs Profile (SR/PNP) Process for the November 2021 Retests

**Updated October 2021** 

This document was prepared by the Massachusetts Department of Elementary and Secondary Education Jeffrey C. Riley Commissioner

The Massachusetts Department of Elementary and Secondary Education, an affirmative action employer, is committed to ensuring that all of its programs and facilities are accessible to all members of the public.

We do not discriminate on the basis of age, color, disability, national origin, race, religion, sex, gender identity, or sexual orientation.

Inquiries regarding the Department's compliance with Title IX and other civil rights laws may be directed to the Human Resources Director, 75 Pleasant St., Malden, MA 02148-4906. Phone: 781-338-6105.

#### I. Introduction

The Student Registration/Personal Needs Profile (SR/PNP) is a collection of student-level data that includes student demographic data, test registration information, and information on selected accessibility features and/or accommodations that a student will use during testing.

The purpose of this document is to provide schools and districts the information needed to complete the initial SR/PNP process as well as update SR/PNP information when necessary. This document provides instructions, followed by field definitions to be used as a reference when completing students' PNP information. This document is intended to supplement the training modules and training webinars (see the MCAS Resource Center for the modules and recordings of the webinars and the <u>Principal's Administration Manual</u> for each administration, which includes a description of the reasons for updating a student's SR/PNP after the initial import).

The accuracy of the SR/PNP is important because it provides a record of certain accessibility features and accommodations used by students. In addition, for computer-based testing (CBT), the SR/PNP determines the test form that students will take (e.g., text-to-speech); for paper-based testing (PBT), it provides the basis for the initial shipment of test materials to schools (e.g., Student ID Labels, test booklets, answer booklets, large-print booklets). The SR/PNP process is also the basis for schools' orders for test administration manuals.

The general process for the SR/PNP is as follows:

- On the first day of each SR/PNP window, the Department posts a student-level file in DropBox Central in the DESE Security Portal containing information on students, based on the most recent Student Information Management System (SIMS) or Schools Interoperability Framework (SIF) data.
- 2. Schools/districts receive notification via the <u>Student Assessment Update</u> when it is time to complete the SR/PNP for the administration.
- 3. Schools/districts update the file with new data and remove outdated data, and then import the file into PearsonAccess<sup>next</sup> (PAN), the online test management site.

All schools, with the exceptions below in the "Special Situations" section, must complete the initial SR/PNP file import, after which schools can update the SR/PNP in the PAN interface for small numbers of students, or import a new file into PAN for large numbers of students (see deadlines listed on the Department's website).

Note that accommodations that require a special test form—text-to-speech, compatible assistive technology, screen reader, Spanish, and American Sign Language (ASL)— must be assigned to students **before testing** in order for the student to receive the correct test. Updates to these special test forms cannot be made in PAN after a student has begun testing. Selected accommodations and accessibility features must be up to date in the SR/PNP for students by the end of each test administration window in order for the Department to have current data for the purposes of reporting results, including Parent/Guardian Reports, as well as providing information for the next administration.

## **SR/PNP for Students Who Transfer**

Note that the "enrollment transfer" task in PAN is used when a student transfers between schools. All student PNP data from the first school will transfer along with the student record to the new school. For

CBT, the student will be placed in a new PAN Session (a "transfer session") in the new school with the same settings as the original PAN Session from the first school.

## **Instructions on Ordering Materials for Former Students/Adults**

High schools that are seeking to order test materials for former students who have not confirmed whether or not they will participate in a test administration should plan to order additional materials as needed during the additional materials windows (the <u>testing schedule</u> includes dates for the additional materials windows).

### **Special Situations**

Adult/external diploma programs, test sites, DYS/SEIS (Department of Youth Services/Special Education in Institutional Settings), and other high schools with a special situation should contact the MCAS Service Center to place an order for a total amount of test materials instead of using the SR/PNP process. (Other high schools will be directed to follow the SR/PNP process.)

#### **Schools with No Students Participating in Retest Administrations**

High schools that do not have any students participating in the November retest, February Biology, or March retest administrations must <u>email theMCAS Service Center</u> with the school and district name and code. The MCAS Service Center will be calling schools that do not complete the SR/PNP or did not contact them before the deadline.

## II. Steps for Completing the Initial SR/PNP Upload

Schools should follow the instructions below to complete the initial SR/PNP upload of student information into PAN.

## Prepare the data file

- Log in to the Department's <u>Security Portal</u>. At **DropBox Central**, select the **MCAS Data** folder for the test administration year (e.g., the MCAS 2021 folder for the November administration) and download the .CSV file for the administration you are working with.
- 2. Delete rows of students who are no longer enrolled in your school or who will not participate in that particular administration.

**Note:** In order to delete students from the file, you must right-click on the row to remove and select "delete." **Do not use the delete key on your keyboard.** 

- 3. Add rows for students who were not included in the file but should be tested.
  - **Note:** This step is particularly important for PBT, since students taking PBT will **only** receive Student ID Labels and secure test materials if they are listed in PAN during the initial SR/PNP window.
- 4. Enter any accessibility features or accommodations students may need in the designated columns, asshown in the field definitions below. Refer to the field definitions in Part IV of this document for the expected values for each column.

**Note:** The Department does not pre-populate accessibility features and accommodations data for retest or February Biology administrations. Be sure to review and update students' accessibility features and accommodations, as needed.

5. Column M of the SR/PNP file can be used to automatically create PAN Sessions and add students to those sessions for CBT tests. Schools may choose to do this step during the initial SR/PNP import or later on, prior to testing. Once students have been added to a PAN Session, the SR/PNP cannot be used to move students from one PAN Session to another. Because of this, the Department recommends this step be done only when PAN Session lists have been finalized. See the field definitions Column M below, "Session Name," for recommended naming conventions.

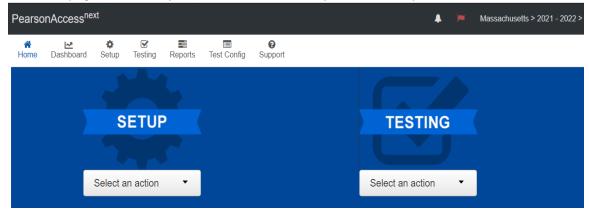

Note: PAN Sessions are grade and subject specific.

6. Save the file as a .CSV file.

**Note for Apple users:** Prior to saving, verify that the Date of Birth field (column I) is correctly formatted to show all four digits of the birth year. If not, please refer to the directions shown in column I in the table in Part IV to update.

#### Import the file into PAN

- 1. Log in to PAN.
- 2. Select the appropriate test administration from the dropdown menu located near the top right of the home page (under the year) for the SR/PNP data you want to import.

- 3. On the Setup menu, select Import/Export Data.
- 4. In the **Select Tasks** dropdown, select **Import/Export Data.** Click **Start**.
- 5. In the **Type** dropdown, select **Student Registration Import.** Ignore the checkbox for "Update demographic data only" (see the image below). If this checkbox is selected, CBT tests will **not** be created for students and PBT tests will **not** be sent for students.
  - Update demographic data only.
- 6. Choose the .CSV file you had previously saved and select **Process. Note:** PAN will only allow .CSV files to be imported. Files can be saved in another format (e.g., .xlsx) while working in them, but they must be changed back to .CSV prior to importing.

## Confirm that all records have been successfully imported

- 1. The **View File Details** screen will appear. Refresh the screen by selecting the icon (at the top).
- 2. When the file has completed processing, a green box with the message **Complete** or a red box with the message **Complete with issues** will appear on the screen. Two messages will also appear: the number of **successful records**, and the number of **error records**, if any.
- 3. If there were errors in processing the file, messages will appear at the bottom of the screen. Error messages will indicate the specific field(s) that caused the error as well as information on how to correct it. The record number listed will match the row of the .CSV file that caused the error. A sample screen is shown below:

#### **Errors**

- 4. Correct the rows that had an error and repeat the steps above until all records import successfully. You may reuse the initial import file, leave the records without errors in the file, and correct only the records with errors. When re-importing this file, PearsonAccess<sup>next</sup> will treat the records without errors as updates, even if no values changed. This will not cause any issues.

  Note: A list of common error codes and solutions can be found in Part IV of this document.
- 5. If you attempt to import a student who is registered for testing at a different school (i.e., a student who recently transferred into your school), you will receive a file import error (see the screen shot below) informing you that you do not have access to the student's organization. To register the student, you must submit an **Enrollment Transfer Work Request** by following the steps under "Manually request an enrollment transfer for a new student" below. Once the request is approved bythe student's former school, the student will be registered for the test administration at your school. Any assigned subject tests and accommodations and/or accessibility features from the former school will be included in the student's SR/PNP.

#### **Errors**

## Update SIMS with any changes to student information made in PAN

Changes in student enrollment and/or student information that you made in PAN must also be made in SIMS. Call your district SIMS contact with updates (see the "Important Contact Information and Resources" on page 3 for instructions on finding your district's SIMS contact).

## III. Steps for Updating Student Information After the Initial Upload

The table below describes when to use each of the options for updating the SR/PNP:

Options for updating the SR/PNP:	When would you use this option?		
Option 1: SR/PNP file export and import	when updating a large number of student records		
Option 2: PAN user interface	when updating approximately 10 or fewer records		

# Option 1: File Export and Import Download the school's file from PAN

- 1. Log in to PAN.
- 2. Select the appropriate test administration from the dropdown menu in the top right corner. (See the sample screen shot on page 8.)
- 3. On the **Setup** menu, select **Import/Export Data**.
- 4. In the Select Tasks dropdown, select Import/Export Data. Click Start.
- 5. In the **Type** dropdown, select **Student Registration Export**.
- 6. Do not change any of the Test Status Filters prior to exporting the file.

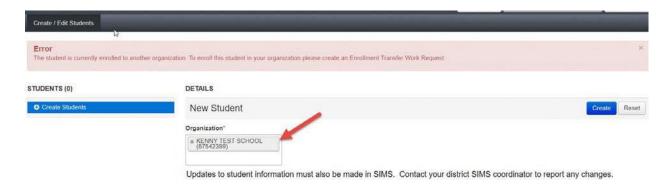

- 7. Select Process.
- 8. Refresh your screen until the process has completed. Then click **Download File**.
- 9. Save the file in a location that you can find easily (e.g., your computer's hard drive).
- 10. Follow the steps in Part II on pages 7-9 to prepare the data file and import it into PAN.

# Option 2: PAN User Interface Manually add a new student record

1. Log in to PAN.

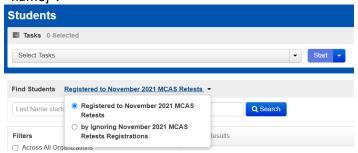

- 2. Select the appropriate test administration from the dropdown menu in the top right corner (see the screen shot on page 8).
- 3. On the **Setup** menu, select **Students.**
- 4. In the **Select Tasks** dropdown, select **Create/Edit Students** and **Registration** (**Register Students** and **Manage Student Tests** will automatically be selected). Click **Start.**
- 5. Tabs will appear at the top of the screen for each task that will be done sequentially.
- Add details to the New Student screen. Enter all required fields (indicated by a red asterisk). Click Create.
- Click Register Students at the top of the screen. Click the Registered checkbox. Click the Student Grade dropdown and indicate the student's grade. (This is a required step for all administrations.) Click Save.
- 8. Click **Manage Student Tests** at the top of the screen. Select the student from the dropdown, assign a test to the student, and select the organization. Leave the group name blank. Select the test format, and then select the checkbox next to each accommodation that applies to the student. For more information about each accommodation, hover your cursor over the for each accommodation. Click **Create**.
- 9. Create and register additional students as needed.
- 10. If you attempt to add a student who is already registered for testing at a different school (i.e., a transfer student), you will see an error message (see screen shot below) informing you that you must complete an Enrollment Transfer Work Request. To complete the request, follow the steps under "Manually request an enrollment transfer for a new student" below. Once the request is approved by the student's former school, the student will be registered for the test administration at your school. Any assigned subject tests and accessibility features and/or accommodations from the former school will be included in the student's SR/PNP.

## Update an existing student record

1. Log in to PAN.

- 2. Select the appropriate test administration from the dropdown menu in the top right corner (see the screen shot on page 8).
- 3. On the **Setup** menu, select **Students.**
- 4. Search for the student record by the student's last name or SASID. If you are unable to locate your student, change the drop down from "Registered to [admin name]" to "by Ignoring [admin name]".

- 5. Click the checkbox next to the student's name.
- 6. From the **Select Tasks** dropdown, select **Create/Edit Students** and/or **Manage Student Tests** (depending on what needs to be updated).
- Click Start. Update the student information as needed.
   Note: For the Next Generation PBT edition of the high school ELA and Mathematics tests, when updating accommodations, update both Session 1 and Session 2 on the Manage Student Tests page.
- 8. Click Save.

## Manually request an enrollment transfer for a new student

- 1. Log in to PAN.
- 2. Select the appropriate test administration from the dropdown menu in the top right corner for the SR/PNP data you want to import (see instructions on page 8).
- 3. On the **Setup** menu, select **Work Requests.**
- 4. From the Select Tasks dropdown, select Request/Delete Enrollment Transfer. Click Start.
- 5. Enter the required student information. Click **Search**.
- 6. Select the organization where the student will be testing on the Change Enrollment To dropdown. Click Send Request. Once the request is approved, the Transfer Coordinator at your organization will receive a confirmation email from noreply@pearsonaccessnext.com. All related testing information for the student will be moved to your organization.

## Approve an enrollment transfer for a student no longer enrolled

- 1. Log in to PAN.
- 2. Select the appropriate test administration from the dropdown menu in the top right corner for the data you need to update.
- 3. On the **Setup** menu, select **Work Requests.**
- 4. Select any records in the "Waiting for Approval" status (if needed, more than one can be selected at a time).
- 5. From the Select Tasks dropdown, select Approve/Reject Enrollment Transfer. Click Start.
- 6. Click Approve.

## **Use the New Operational Report to Confirm Registration**

For the November 2021 retest administration, students should be assigned to *either* the next-gen *or* legacy retests.

After submitting their initial SR/PNP, schools are encouraged to run a new operational report to confirm that students are only assigned to one format (next-gen for ELA and Math, or legacy for ELA and Mathematics).

If a student is assigned to multiple tests for the same subject, follow the directions in the <u>PearsonAccess</u> <u>Next User Guide</u> to unassign the student from the incorrect test.

#### Accessing the "Students with Multiple Tests of Same Subject Area" Report

- 1. Log in to PAN.
- 2. Select the appropriate test administration from the dropdown menu in the top right corner.
- 3. Go to Reports > Operational Reports.
- 4. Select **Students and Registrations**.

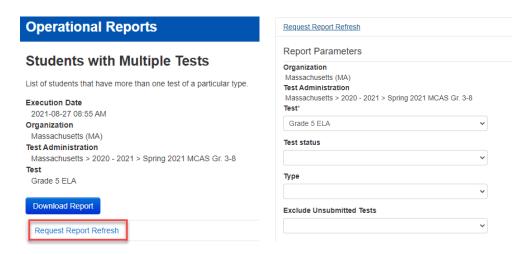

5. Select Students with Multiple Tests of Same Subject Area.

#### Students with Multiple Tests of Same Subject Area

List of students that have more than one test assignment of a specific subject area

6. Click **Request Report Refresh** to ensure you have the correct filters set for your report. Click on **Refresh Report** to process.

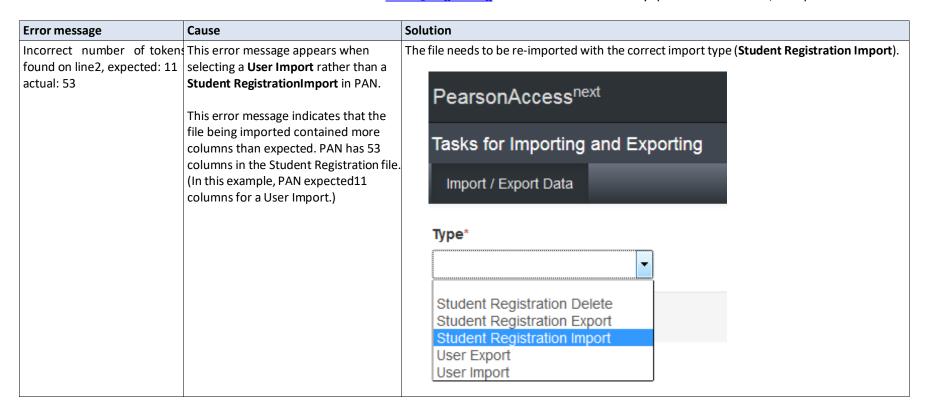

- 7. Refresh the screen by selecting the icon (at the top).
- 8. Select **Download Report**. See the screenshot below for a sample report results.

SASID	Last Name	First Name	Middle Name	Test Name	Test Code	Organization Name	Organization Code
1234567890	Doe	Jane	Q	NextGen ELA CBT Retest	ENRNG	TEST SCHOOL	11111111-12345678

4567890123	Smith	John	J	NextGen Mathematics CBT Retest	MNRNG	TEST SCHOOL 2	11111111-45678901

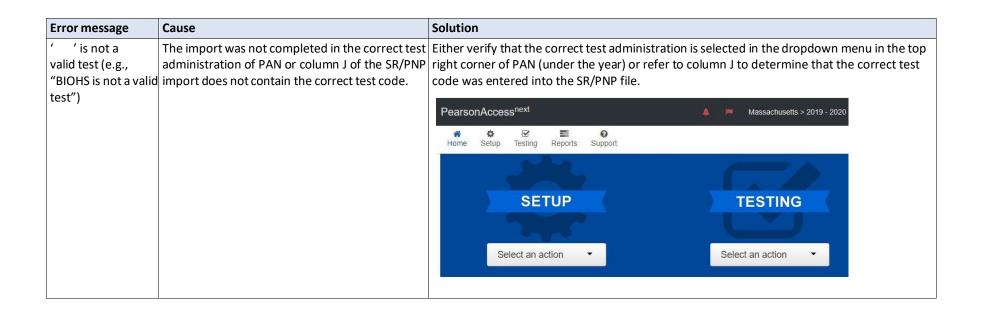

## IV. Common errors to avoid when completing the SR/PNP

Below are common errors that can occur during the Student Registration/Personal Needs Profile (SR/PNP) import process, as well as solutions to correct them.

Contact the MCAS Service Center at mcas@cognia.org or 800-737-5103 with any questions on the SR/PNP process.

Error message	Cause	Solution				
No error message, but the file is not uploaded correctly	Typically, this occurs when a user imports a file that was saved in the wrong format.	Users should verify that the file is saved in the <b>.CSV</b> format. PAN will not import files saved as .xlsx or .txt				
		Save As

## V. Field Definitions

The following pages contain a table showing the SR/PNP fields and definitions, as well as notes and validations (e.g., if steps are not followed, the error messages that will appear), and the expected value for each column.

The table includes the following sections:

- Student Registration/Personal Needs Profile
- Universal Accessibility Features
- Accommodations

The field definitions include only the November 2021 MCAS ELA and Mathematics administration for both next-generation and legacy formats.

#### **Field Definitions**

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
				Student Registration/Pers	onal Needs Profile		
А	District Code	N	8	The Testing District responsible for administering the test to a student		Non-public schools that do not have a parent organization should leave this field blank.	0–9 A-Z
В	School Code	Υ	8	The Testing School responsible for administering the test to a student		If a school code does not already exist in PAN, an error message will appear.	Must match a valid organization code in PAN. Use the same codes that are in theDepartment's School and District Profiles.
С	SASID	Υ	10	A unique numeric code given to each Massachusetts publicly funded student  If you do not have a student's SASID (e.g., SASIDs cannot be <b>newly</b> assigned for students 22 years of age or older), create and assign to the student a 10-digit number starting with "88" (instead of "10"). If a valid SASID is eventually assigned to the student, correct the SASID in PAN.		SASID must be 10-digits beginning with "10"	1–9 SASIDs must begin with "10" or "88"

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
D	Student Grade	Υ	2	Student's grade, as listed in most recent SIMS		November 2021 High School Retests  Next-generation retests: repeating grade 10, grade 11, grade 12, SP Legacy retests: repeating grade 11, grade 12, SP	
E	Last Name	Y	25	The student's full legal last name that is borne in common by members of the family			A–Z a–z - (Hyphen) . (Period) ' (Standard Apostrophe) Embedded Spaces
F	First Name	Y	25	The student's full legal first name that was given at birth, baptism, or through legal change			A–Z a–z - (Hyphen) . (Period) '(Standard Apostrophe) Embedded Spaces

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
G	Middle Initial	N	1	The initial of the full middle name given to the student at birth, baptism, or through legal change			A–Z a–z Blank
Н	Gender	N	1	Gender of the student			M = Male F = Female N = Non-Binary Blank
	Date of Birth	Υ	10	The year, month, and day on which the student was born  Note for Apple users: .CSV files on a Mac will remove the first two digits on the birth year, and an error message will appear. Use the following steps to update the formatting.  1. Select column I in the file and right-click (secondary click). 2. Select Format Cells from the menu. 3. Select the Custom option from the list. 4. In the Type text box, remove the text and enter "mm/dd/yyyy." 5. Click OK.			mm/dd/yyyy
J	Test code	Y	5	Identifier assigned to the test name		November 2021 High School Retests  • ENRNG = ELA November Retest Next-Generation • MNRNG = Mathematics November Retest Next- Generation • ENRLE = ELA November Retest Legacy • MNRLE = Mathematics November Retest Legacy	ENRNG MNRNG ENRLE MNRLE

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
К	Test Format	Υ	1	Format of the test			P = Paper O = Online
L	First-year English learner(EL)	N	1	For spring administration only, this field shows the first-year EL status, prepopulated by DESE from SIMS.	Not Available for:  November  Next-Gen and Legacy Retests		
M	Session Name	N	50	When creating PAN Sessions, the Department recommends that schools use a naming convention that will help test administrators quickly and easily findthe test they are administering. It is suggested that PAN Session names include the following: test administrator name, testing location, grade, and subject area test. (for example, 6 MATH SAMPSON 205)  Note: Read-Aloud and Human Signer Sessions in PAN must be set up separately from other PAN Sessions. See Columns Y— AB for more information.	Available for:  November Next-Gen Retests  Not Available for:  November Next-Gen and Legacy Retests	For CBT: If this field is populated in the initial import, a PAN Session will automatically be created with the name entered in this field in PAN.  Students who share the same PAN Sessionname will also be automatically placed intothat Session.  Note: If a student's test has already been added to a PAN Session, it cannot be movedby changing this field and reimporting the file. Instead, remove the student's test from the PAN Session and then reimport the file with this field populated.	A-Z a-z 0-9 - (Hyphen) . (Period) ' (Standard Apostrophe) Embedded Spaces Blank
N	Blank Field			Not applicable			
0	Blank Field			Not applicable			

Column Header		Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
P	Blank Field			Not applicable			
Q	Cognia Organization ID	N	10	Schools and districts should ignore this field when importing the file into the system (i.e., leave this field blank). When exported, this field will be populated with the Cognia organization ID.			
				Universal Accessib	ility Features		
R	Alternate Cursor/Mouse Pointer (UF4)	N	3	For CBT Only  Select an enlarged cursor/mouse size with or without a different color.  Student must log out of the test to charge the selected cursor/mouse.	Available for:  November Next-Gen Retests  Not Available for: November Legacy Retests	If expected value equals "M," "L," "XL," "XLB," "XLG," or "XLY," then the following criteria must be met, or the record will cause an error message to appear:  • Test format must be "O"	M = Medium L = Large XL = Extra Large XLB = Extra Large Black XLG = Extra Large Green XLY = Extra Large YellowBlank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
S	Alternative Background and Font Color (Color Contrast)(UF2)	N	2	For CBT only  Selects an alternative color combination for the text (font color) and background  If selected, student may change the alternative color combination during testing.	Available for:  November Next-Gen Retests  Not available for:  November Legacy Retests	If expected value equals "Y" or "01" – "06," then the following criteria must be met, or the record will cause an error message to appear:  • Test format must be "0" • Screen Reader must be left blank • Compatible Assistive Technology must be left blank • Typed Responses must be left blank • Large Print Test Edition must be left blank • Braille Test Edition must be left blank	Y = 01 = Black on Cream 02 = Black on Light Blue 03 = Black on Light Magenta 04 = White on Black 05 = Yellow on Blue 06 = Dark Gray on PaleGreen Blank

Column Field Header	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
T Answ (UF6	 N	1	Response options (answer choices) are not visible; student clicks to reveal each response option	November     Next-Gen     Retests  Not available for:     November     Legacy Retests	If expected value equals "Y," then the following criteria must be met, or the record will cause an error message to appear:	Y = Yes Blank

Column Header	Field Name	Required Y/N	Fields Length (Max)	Field Definitions	Administrations	Field Notes and Validations	Expected Values
				Accommod	ations		
U	Large Print Test Edition (A2)	N		A large-print edition test booklet and answer booklet are provided with printed text in approximately 18-point font. If the student uses the Large Print answer booklet, then responses must be transcribed by a test administrator into the student's standard answer booklet.	Available for:  November Next-Gen and Legacy Retests	If expected value equals "Y," then the following criteria must be met, or the record will cause an error message to appear:      Test format must be "P"     Alternate Cursor/Mouse     Pointer must be left blank     Alternate Background     and Font     Color must be left blank     Answer Masking must be     left blank     Screen Reader Edition     must be left blank     Compatible Assistive     Technology     must be left blank     Braille Test Edition must     be left blank     Text-to-Speech must be     left blank     Kurzweil 3000 Special     Edition as a     Standard/Special Access     Accommodation must be     left blank     ASL Edition must be left     blank     English/Spanish Edition     must be left blank     Web Extension must be     left blank	Y = Yes Blank
