The purpose of this document is to provide a full list of permissions granted to each user role in PearsonAccess^{next}, as well as the rules for assigning roles to another user.

Role Types

There are four roles that can be assigned to users in PearsonAccess^{next}. A user account will generally only need one role assigned, but multiple roles can be assigned if needed. For example, a Principal or School Test Coordinator may also be assigned the Technology Coordinator Role.

List of Roles

- **District Test Coordinator Role** – Assigned to District level user accounts.
- **Principal or School Test Coordinator Role** - Assigned to Principal or School Test Coordinators.
- **Test Administrator Role** – Assigned to users who will be administering computer-based tests.
- **Technology Coordinator Role** – Assigned to users who will be supporting technology for computer-based testing.

User Role Conferrability

If the user has been granted this role...	...then the user may grant these roles to others.
